DIRECTORY OF RECENT MINING OPERATIONS IN IDAHO

Compiled by

Serena Nygaard¹

INTRODUCTION

This directory of recent mining operations in Idaho was compiled mainly from information furnished by the Health and Safety Analysis Center of the Mine Safety and Health Administration in the U. S. Department of Labor, P.O. Box 25367, Denver, Colorado 80225. Additional information was taken from the U. S. Bureau of Mines' *Minerals Yearbook, 1978-79*.

The directory is divided into sections of active and inactive mining, which are further subdivided into underground and surface operations. Every effort has been made to make the directory complete and accurate; however, any additions or corrections should be sent to the Idaho Bureau of Mines and Geology.
